Conference Exhibitor Guidelines

Registration

Due to the space constraints at our conference, it is necessary for us to allow only those exhibitors who have registered in advance of the conference. Registration forms are available online and in the NF office. We are planning on registering only exhibitors representing both profit and nonprofit ministries and organizations. **This means that we will not be allowing individual missionary displays, but instead will be focusing on the mission agencies, as well as businesses, organizations and ministries that will be helpful to our network of churches.** We will allow a place in our conference schedule to recognize the missionaries who are present at the conference.

Exhibitor Fee

In the past, our church ministry resource exhibitors advertised for free. We have now established a reasonable fee which will help with the expenses of the conference and allow you, the exhibitor, the opportunity to advertise your resources. **The fees are \$50.00 for non-profit ministry organizations, and \$75.00 for a business (for profit).**

From this point on, church resources ministry exhibitors are to submit their application with the NF office 30 days prior to their coming to the conference. This process will need to be repeated once every 5 years. Upon approval, we would appreciate it if fees were paid prior to the conference, the exhibitor may then set up a booth at each conference upon requested. We hope these changes will prove to be both beneficial to our conference, our network churches, as well as the exhibitors displaying resources and information that will be useful to our network churches.
